## I. Teacher Evaluation Plan Development Process

In 2012, a committee of teachers, administrators and a member of the Board of Education meticulously researched and developed the Peru Elementary School District 124 Teacher Evaluation Plan that follows. In part, this process was necessary to ensure compliance with the Illinois Performance Evaluation Reform Act (PERA), which is Public Act 96-0861. PERA required significant changes to how teachers are evaluated and how evaluations are used.

The development of a research-based teacher evaluation plan that incorporates "the growth of student learning and the growth of the teacher as a professional" was part of the Strategic Plan for Peru Elementary School District 124. The focus was to develop a more effective evaluation plan that focuses on the growth of the teacher and provides a more objective and clear means of communication throughout the process. The task of this committee was to study, plan, research, develop and implement a new, comprehensive teacher evaluation plan that is in compliance with PERA, and also that meets the needs of the district and the professional growth needs of the district's teachers with the ultimate goal of improving the process of teaching and learning. This committee has continued this work to develop the student growth model in a manner that is relevant, meaningful and professional.

In 2021-2022, a committee of teachers and administrators convened to review the Teacher Evaluation Plan, Framework, and Student Learning Objectives. The purpose and focus of the committee was to review all aspects of the evaluation process and make necessary adjustments based on input from teachers and administrators. After multiple meetings and subcommittee meetings, the committee made recommendations that are reflected in the current evaluation plan.

## II. The Teacher Evaluation Framework

After considerable research, including a group study of Charlotte Danielson's *A Framework* for Teaching (2<sup>nd</sup> Edition), the committee focused on the development of an evaluation instrument aligned with Danielson's framework. Danielson has revolutionized the teacher evaluation process with language among the four domains that is clear, concise and more easily understood between the teacher and the evaluator. It also recognizes professional growth as a major component in the process. The 2021-2022 committee revised and clarified language from the original framework and made recommended changes without disturbing the integrity of the framework.

# III. Committee Members and Plan Approval

The members directly involved with the 2021-2022 revised Teacher Evaluation Plan Committee were: Brandi Anderson-Maier, Tara Backes, Heather Baker, Cinnamon Bosnich, Melissa Bosnich, Carolyn Bryant, Katie Budnick, Melissa Cass, Jamie Craven, Tara Duncan, Jade Hubinsky, Dawn Ladzinski, Sara McDonald, Beth Rich, Kelly Schaefer, Phil Whaley. On March 10th, 2022, the committee voted unanimously to approve the updated evaluation plan. The committee continues to periodically review and update the plan as needed, and the Board approves the plan annually.

## IV. Core Beliefs of the Teacher Evaluation Process

The committee developed a list of eight core beliefs that we believe are critical to the teacher evaluation process. In no particular order, these beliefs are as follows:

- √ The evaluation should be part of an ongoing process.
- ✓ There should be clarity of expectations for both the teacher and the evaluator.
- ✓ The evaluation should be based on continual improvement of instruction with the goal of improved student learning.
- ✓ The evaluation should be flexible enough to account for different teaching assignments, grade levels and professional responsibilities.
- ✓ The evaluation process should be collaborative in nature.
- ✓ The evaluation process should include self-reflection and self-assessment.
- ✓ The evaluation process should take into account the professional growth and experience of the teacher.
- ✓ Professional growth can always take place and improvement should never end.

### V. Goals of the Teacher Evaluation Plan

The committee also developed five goals as work progressed on the Teacher Evaluation Plan. In no particular order, these goals are as follows:

- ✓ To develop an evaluation tool that ultimately improves teaching and learning.
- ✓ To provide a fair and consistent method of teacher evaluation across the school district that meets the diverse needs of the staff.
- ✓ To provide a common language that allows for clear expectations about effective instruction and professional dialogue.
- ✓ To allow teachers to play a direct, active role in the process of their own evaluation, including opportunities for self-reflection and professional growth.
- ✓ To develop a plan that is legally sound and in compliance with PERA.

# VI. The Domains, Components and Elements

Danielson's framework outlines four "Domains of Teaching Responsibility", as well as components under each domain. The Teacher Evaluation Plan Committee modified the components slightly to fit the needs of the District's teachers, while also allowing for exactly five components under each domain.

The Framework for Teaching Summary (Appendix A) provides more detailed elements under each component, and the Formative Evaluation Framework (Appendix G) includes descriptors for each performance level for the four domains and twenty components. The four domains, as well as the five components under each domain, are as follows:

## **Domain 1 Planning and Preparation**

- 1A Demonstrating Knowledge of Content, Pedagogy and Resources
- 1B Demonstrating Knowledge of Students
- 1C Setting Instructional Outcomes
- 1D Designing Coherent Instruction
- 1E Designing Student Assessments

#### **Domain 2 The Classroom Environment**

- 2A Creating an Environment of Respect and Rapport
- 2B Establishing a Culture for Learning
- 2C Managing Classroom Procedures
- 2D Managing Student Behavior
- 2E Organizing Physical Space

#### **Domain 3 Instruction**

- 3A Communicating with Students
- 3B Using Questioning and Discussion Techniques
- 3C Engaging Students in Learning
- 3D Using Assessment in Instruction
- 3E Demonstrating Flexibility and Responsiveness

#### **Domain 4 Professional Responsibilities**

- 4A Reflecting on Teaching
- 4B Maintaining Accurate Records
- 4C Communicating with Families
- 4D Growing and Developing While Participating in a Professional Community
- 4E Showing Professionalism

## VII. Levels of Performance and the Four Rating Categories

In compliance with PERA, the Teacher Evaluation Plan includes four specific rating categories that correspond with Danielson's Levels of Performance. The four evaluation rating categories are: Excellent, Proficient, Needs Improvement and Unsatisfactory.

## VIII. Domain Rating System

Under each of the domains, individual teachers are rated according to the above levels for each of the twenty components. The five component ratings under each domain are then used to determine the overall rating for the corresponding domain as follows:

#### **Excellent**

Excellent ratings in at least three of the components of the domain, with the remaining components rated as no lower than Proficient.

#### **Proficient**

No more than one component rated as Needs Improvement, with the remaining components rated as Proficient or higher.

#### **Needs Improvement**

One component rated as Unsatisfactory; OR more than one component rated as Needs Improvement, with the remaining components rated as Proficient or higher.

#### Unsatisfactory

Any two or more components rated as Unsatisfactory.

## IX. Professional Practice Rating Score (70 Percent)

The overall Professional Practice Rating comprises 70 percent of the final summative rating calculation. Individual teachers are assigned a professional practice rating (with the Professional Practice score shown in parentheses) based on the four domain ratings as follows:

## Excellent (4)

Excellent ratings in three or more of the domains, with the remaining domain rated as Proficient.

## Proficient (3)

No more than one domain rated as Needs Improvement, with the remaining domains rated as Proficient or higher.

#### **Needs Improvement (2)**

More than one domain rated as Needs Improvement, with the remaining domains rated as Proficient or higher.

## **Unsatisfactory (1)**

Any domain rated as Unsatisfactory.

#### **Professional Practice Rating Score Conversion**

The Professional Practice rating score is based on Danielson's Levels of Performance as explained in Section IX. The rating categories are then converted to a Professional Practice score of 4, 3, 2 or 1 and those scores are then multiplied by 0.7 to convert these to a Professional Practice Weighted Score as follows:

Professional	<b>Professional</b>	70	<b>Professional</b>
Practice	Practice	Percent	<b>Practice</b>
Rating Category	Score	Weighting	<b>Weighted Score</b>
Excellent	4	0.7	2.80
Proficient	3	0.7	2.10
Needs Improvement	2	0.7	1.40
Unsatisfactory	1	0.7	0.70

# X. Student Growth Rating Score (30 Percent)

The overall Student Growth rating is based on two district-wide assessments, namely the MAP Reading Test and the MAP Math Test. The Joint PERA Committee will meet every November to determine the percentage of each score, not to exceed 30%. The following table shows in a visual format the combined result of the assessments.

### **Student Growth Rating Score Conversion**

The overall Student Growth rating is then converted to a Student Growth score of 4, 3, 2 or 1. The Student Growth Score is then multiplied by 0.3 to convert it to a Student Growth Weighted Score as follows:

Student	Student	30	Student
Growth	Growth	Percent	Growth
Rating Category	Score	Weighting	<b>Weighted Score</b>
Excellent	4	0.30	1.20
Proficient	3	0.30	0.90
Needs Improvement	2	0.30	0.60
Unsatisfactory	1	0.30	0.30

# XI. Final Summative Score and Rating

The calculation for the combined summative score and rating is made by combining the Professional Practice weighted score and the Student Growth weighted score (see Appendix H), resulting in the teacher receiving a Combined Summative Score and Final Summative Rating as follows:

## **Combined Final Summative**

Summative	Score	Rating
3.70 - 4.00		Excellent
2.70 - 3.69		Proficient
2.00 - 2.69		Needs Improvement
1.00 - 1.99		Unsatisfactory

The following table shows in a different visual format the same results of the combined Professional Practice weighted score and the Student Growth weighted score to form the Final Summative Rating (see Appendix H):

ס		PROFESSIONA	L PRACTICE RATIN	G (70 PERCENT)	
Rating )		EXCELLENT	PROFICIENT	NEEDS IMPROVEMENT	UNSATISFACTORY
wth	EXCELLENT	EXCELLENT	PROFICIENT	NEEDS IMPROVEMENT	UNSATISFACTORY
t Gro 0 Per	PROFICIENT	EXCELLENT	PROFICIENT	NEEDS IMPROVEMENT	UNSATISFACTORY
Student (30	NEEDS IMPROVEMENT	PROFICIENT	PROFICIENT	NEEDS IMPROVEMENT	UNSATISFACTORY
Sti	UNSATISFACTORY	PROFICIENT	NEEDS IMPROVEMENT	UNSATISFACTORY	UNSATISFACTORY

## XII. Observation and Evaluation Timeframes and Schedule

As stated in the core beliefs and goals of the Teacher Evaluation Plan, the teacher evaluation process is an ongoing effort focused on the professional growth of the teacher and should ultimately improve teaching and learning. It is also a legal process with specific requirements and necessary timelines that need to be followed. The Evaluation Plan Timeframes are summarized in Appendix B.

#### **Formal Observations**

A schedule with the planned week of dates of formal observations will be distributed by the evaluator to all affected teachers no later than the first student attendance day of the school year. Should circumstances arise that make it necessary to make changes to this schedule, the evaluator or teacher will notify the other a minimum of one week prior to the rescheduled date, unless an earlier time is mutually agreed upon by both parties. Probationary teachers shall be formally observed at least two (2) times each probationary year and tenured teachers a minimum of once every two years.

#### **Pre-Conference Forms and Schedule**

The evaluator and teacher will establish the specific dates and times of the preobservation conference and formal observations. Formal observations will not be conducted during the first week of school or in the last full week and remaining days before winter break. Each formal classroom observation shall be a minimum of thirty (30) consecutive minutes.

The teacher will provide the evaluator with the completed Pre-Observation SelfEvaluation form (Appendix D) at least one (1) day prior to the scheduled pre-observation conference. Prior to the pre-observation conference, both the teacher and the evaluator should also refer to the Pre-Observation Conference Guiding Questions (Appendix E). This includes potential guiding questions intended to open up conversations between the teacher and evaluator about the lesson to be formally observed. This form does not need to be completed in writing or submitted, but can be used for notes or discussion.

#### **Post-Observation Reflection Conference Forms and Schedule**

The post-observation reflection conference must take place within ten (10) school days of the formal observation. The teacher will provide the evaluator with the completed Post-Observation Reflection Conference form (Appendix F) within two (2) days after the scheduled observation. Any other necessary post-observation conference documents will be provided by the evaluator to the teacher at least one (1) day prior to the scheduled post-observation reflection conference.

#### **Informal Observations**

In addition to the number of formal observations described above for probationary and tenured teachers, at least one informal observation must be conducted during each evaluation cycle. Informal observations do not require any notifications or forms; however, if any information from the informal observations is used in the final summative rating, then this information must be shared in writing to the teacher within ten (10) days after the completion of the informal observation and the teacher must have an opportunity to discuss this with the evaluator following the observation.

#### **Annual Professional Responsibilities Data Collection**

Any artifacts (See Appendix C) must be submitted by the teacher to the evaluator on by February  $1^{st}$  of each school year.

## **Missed Timelines and Special Circumstances**

Any teacher who is not evaluated during their scheduled evaluation year due to timelines missed by the evaluator will have a letter placed in his/her personnel file with a copy to the teacher stating that the lack of an evaluation signifies that the teacher is performing at an "excellent" level.

In the event a teacher medical leave or other unforeseen, long-term absence prevents the issuance of a final summative evaluation rating, a rating will not be provided and the teacher will be placed on the evaluation cycle the following year.

## XIII. Needs Improvement and Unsatisfactory Ratings

An Individual Growth Plan (Appendix I) must be developed between the teacher and the evaluator within thirty (30) days after the completion of a summative evaluation rating in which a tenured teacher is rated as Needs Improvement in any one or more domains, or on the final summative evaluation rating. The plan should address any or all domains and/or components rated as Needs Improvement or Unsatisfactory.

In addition to the development of the Individual Growth Plan, a tenured teacher receiving a domain or summative rating of Needs Improvement shall be evaluated again for the next ensuing school term with a minimum of two (2) formal observations and one (1) informal observation during the new evaluation cycle. The same timelines are otherwise followed as outlined in Section XII. The Individual Growth Plan is not utilized for non-tenured teachers who receive a rating of Needs Improvement.

#### **Unsatisfactory Rating and Remediation**

In the event a tenured teacher receives an overall summative evaluation rating of Unsatisfactory, a remediation plan will be developed in accordance with current statute. The remediation process includes a number of specific requirements for the teacher under remediation, the evaluator(s) and the consulting teacher, and also includes specific timelines per the law.

If a tenured teacher exhibits evidence of Unsatisfactory practice at any time, the summative evaluation process may be commenced to determine the rating. Should the rating be determined to be Unsatisfactory, then a remediation plan will be developed as described above.

The teacher will be provided with the opportunity to provide any artifacts or evidence in response to an Unsatisfactory rating, with the understanding that the timeline will follow the schedule determined in the remediation plan, rather than any other references contained in the Teacher Evaluation Plan.

## XIV. Summative Evaluation Rating and Written Response

All formal observations, conferences and final summative evaluations must be completed by March 1<sup>st</sup> of the summative evaluation year. Teachers shall be provided with a copy of the Final Summative Evaluation Score and Rating Report (Appendix H) at least 24 hours prior to the meeting to review the final document with the evaluator. One final copy must be signed and dated at that meeting by both the teacher and the evaluator indicating receipt of the summative evaluation, and this original hard copy is to be placed in the teacher's personnel file.

Signing the summative evaluation by the teacher shall indicate receipt, but not agreement with, the contents of the evaluation. If the teacher disagrees with the summative evaluation and/or narrative, his/her written response to the evaluation must be submitted within ten (10) working days of its receipt. Any written response will be attached to the summative evaluation in the personnel file.

#### **Personnel File**

Each teacher's personnel file shall contain the following minimum items of information: signed copies of all summative teacher evaluations, required medical information, current transcripts and any other information which could be used as a basis for discipline, reemployment, assignment, termination, transfer or determining salary.

The teacher may attach a written statement to any complaint or disciplinary action that is placed in the teacher's personnel file. If the complaint or disciplinary action is to be placed in the teacher's file, the teacher will receive verbal notice prior to written notice of the substance of the documentation.

## XV. Assignments, Representation, Training and Disclaimers

It is understood that the evaluator will generally be the principal at the particular building to which a teacher is assigned. In the event a teacher has a dual assignment, it will be clarified to the teacher at the beginning of the school term to which evaluator he/she is assigned. In the unlikely event an evaluator other than the building principal needs to be assigned, this will also be indicated at the beginning of the school term, or at the time this becomes necessary.

### **Association Representation**

Upon request of the teacher, a representative of the teacher association will be present during post-observation and/or summative evaluation conferences.

#### **Teacher Evaluation Plan Training**

Once the Teacher Evaluation Plan is enacted, formal training and development on the new plan will be provided to all teachers. From that point on, new teachers in the district will be provided training on the evaluation plan prior to the completion of any formal observations or summative evaluations. It is ultimately the responsibility of each individual teacher to be completely familiar with the teacher evaluation process, timelines, forms and teacher responsibilities. Questions or clarification should be directed to the evaluator or the superintendent. Prior to conducting any formal observations or summative evaluations, evaluators must complete required training that is in compliance with current state statute.

#### **Teacher Evaluation Plan Disclaimers**

This Teacher Evaluation Plan in intended to be flexible and adaptable to all the various teaching positions within the district. Evaluators will consider the uniqueness of each teacher's assignment when making judgments about their effectiveness. Specific job variations such as the number of students taught and the instructional time available may impact such factors such as the ability to individualize and differentiate instruction, communicate individually with parents and devote large amounts of time doing assessments.

Furthermore, any issues or conflicts that may arise within the Peru Elementary School District 124 Teacher Evaluation Plan or throughout the teacher evaluation process will be brought forth to the appropriate parties so that any issues may be resolved in writing.

#### Appendix C - Artifacts

This list is intended to be a guide thinking about artifacts that might be considered for domain 1 - Planning and Preparation and Domain 4 - Professional Responsibilities, both of which are typically not easily observed in the classroom. Whereas, Domain 2 - The Classroom Environment and Domain 3 - Instruction will be collected via classroom observations and walkthroughs. Please note that no educator would want or need to upload all of these, and that there may be other high quality artifacts that would provide evidence for a given component. Include 2 - 4 artifacts that represent evidence for each domain.

## DOMAIN ONE: PLANNING AND PREPARATION (Choose 2 - 4)

- Getting to know students' handout or student interest surveys that gather student feedback
- Anecdotal notes from reader/writer conferences with students
- Assessment or grading rubrics that identify proficiency for an outcome or that are tied to lesson/unit outcome
- College courses/transcripts
- Common core lessons/assessments you created
- Common formative or summative assessments with notes about how the results were used
- Curriculum Guide
- Examples of different types of assessments that aren't from the textbook
- Examples of instruction groups, Intervention/enrichment group plans for guided reading or math groups. What do literacy centers or daily 3 math centers look like?
- Learning targets/ "I can" statements in lesson plans or posted in the room (picture of such)
- Lesson or unit plan that contains appropriate assessment plan tied to standards and outcomes
- Lesson or unit plan that utilizes community resources or speakers
- Lesson plan with differentiated options for learning and assessment (multiple points of entry) that lead to a specific outcome
- Lesson or unit plans that contain learning outcomes that are rigorous and represent a range of important learning
- List of essential questions that are linked to outcomes
- Notes about learner special needs including those from IEP and 504
- Parent/student surveys results analysis
- Proficiency checklists for students
- Research and implementation of Response to Intervention strategies or resources
- Sample Exit tickets or authentic assessments with reflection about how the information was used
- Sample of online resources or collaboration with colleagues regarding curriculum and instruction (blogs, professional organizations, educational social media groups, etc)
- Sample of student input/reflections/journals
- Unit or lesson plan that shows where assessments are built in (formative and summative)
- Written reflections regarding the sequence of instruction and learning activities including any adjustments to meet the unique needs of the students you teach

## **DOMAIN FOUR: PROFESSIONAL RESPONSIBILITIES (Choose 2 - 4)**

- Any type of evidence that shows you advocate, in a professional manner, for a student or students
- Anything that shows how you collaborate with colleagues to improve student learning (team meeting notes, book study with applied learning, action research, etc.)
- Book study groups (could include agenda, notes, actions taken)
- Evidence of membership in professional organizations with notes about how it has impacted you as a professional
- Evidence of parent involvement in classroom
- Evidence of participation on an interview panel
- Evidence of serving as a mentor
- Examples of student portfolios, reading level progress notes, Teacherease or other means of collecting student performance data, etc.
- Letter(s), emails, notes that speak to your standards, integrity, or contribution to the positive culture of the school
- List of course(s) taken or transcript with reflection
- List and notes of reader/writer conferences with students
- Newsletter/Calendar/Website/Social Media that shows how you keep parents informed about what is happening in the classroom on a regular basis
- Parent communication log (includes phone, email, in-person contacts)
- Plans, handouts, agenda or certificate of attendance from workshops or conferences, transcript from a class taken, with reflection including plans for implementation
- PLC agendas/notes
- PowerPoint or outline of something you have presented to others
- Professional Development Plans that include goals and self reflection (other than Appendix D and F)
- Reflective notes related to data analysis, student surveys, parent surveys
- Reflective notes related to observing a colleague or a colleague observing you
- Technology resources used to enhance your knowledge or skill

# Component 1A Demonstrating Knowledge of Content, Pedagogy and Resources

bemonstrating knowledge of content, I cadgogy and kesources			
	Cı		
Unsatisfactory	Needs Improvement	Proficient	Excellent
The teacher's plans and preparations display little knowledge of the content, prerequisite relationships between different aspects of the content, or the instructional practices specific to that discipline. The teacher demonstrates little or no familiarity with resources to enhance own knowledge, to use in teaching, or for students who need them.	_	The teacher's plans and preparations reflect solid knowledge of the content, prerequisite relationships between important concepts, and the instructional practices specific to that discipline. The teacher is fully aware of the resources available through the school or district to enhance own knowledge, to use in teaching, or for students who need them.	The teacher's plans and preparations reflect extensive knowledge of the content and the structure of the discipline. The teacher actively builds on knowledge of prerequisites and misconceptions when describing instruction or seeking causes for student understanding. The teacher seeks out resources in and beyond the school or district in professional organizations, on the internet, or in the community to enhance their own knowledge, to use in teaching, and for students who need them.
