

**To: Peru Elementary School District #124 403(b) Plan Participants**  
**Date: July 14, 2021**  
**Re: Enhancements to your plan's fund menu**

---

We are pleased to inform you of some upcoming changes being made to the investment menu of the Peru Elementary School District #124 403(b) Plan.

After a review process by our retirement plan committee, the following changes are being made:

**New fund being added to the Plan on August 30, 2021:**

Ticker	Fund Description
ACFOX	American Century Focused Dynamic Growth

**Fund replacement within the Plan on September 2, 2021 with no blackout period and no required action on your part:**

Previous Fund	Replacement Fund
T. Rowe Price Blue Chip Growth	American Century Focused Dynamic Growth

Once the new fund appears on the participant website it will be open for investment. For the fund replacement, your existing balance will be *transferred automatically* to the new fund through a process coordinated by BPAS with the mutual fund families. Any portion of your future contributions that was being directed to the previous fund will be automatically re-routed to the replacement fund shown here. If you **do not** want your shares transferred as specified above or wish to make a different set of investment changes, please access your Participant Website now to make any desired changes.

You can find information on the new fund or any of the funds offered within your plan (including fund fact sheets or prospectuses) on the Participant Website.

Please call Human Resources with any questions on this upcoming change.
